Preschool Colors Theme Art

Rainbow Collage

Materials Needed: Scraps of colored construction paper, glue, large white paper for each child, scissors (optional)

The children cut or tear paper into smaller pieces and glue onto the white paper.

Discuss the colors while the children work on their collages. Ask questions about the colors such as:

"I have a red piece of paper here. What else can you think of that is red (apples, hearts, etc.)."

EXTENSION: Provide a picture of a rainbow for the children who may be ready to place the different colors in the order and shape of a rainbow.

EXTENSION: Pre-draw the rainbow arches onto the white paper. Pre-glue one color piece of paper in each arch to show the children which colors go where on a rainbow.
